## HostWorldServices DNS Servers

---

HostWorldServices has a dual infrastructure providing two platforms catering to our web hosting customers.

We have 2 different clusters providing our resources that provide our services to cPanel and Cloud hosting customers.

Please refer to the Table below for our DNS server names.

### HostWorldServices DNS Servernames for cPanel Hosting Plans

DNS	IP Address
dns1.hostworldservices.net	162.210.102.178
dns2.hostworldservices.net	198.23.61.128
dns3.hostworldservices.net	94.136.168.189
dns4.hostworldservices.net	94.136.168.190

### HostWorldServices DNS Servernames for Cloud Hosting Plans

DNS	IP Address
dns1.hostworldservices.us	198.23.54.140 (Shared IP)
dns2.hostworldservices.us	198.23.56.207 (Shared IP)
dns3.hostworldservices.us	94.136.171.52 (Shared IP)
dns4.hostworldservices.us	185.196.102.2 (Shared IP)

If your domain name is registered with another hosting company and your website will be hosted with us, you will need to change your DNS settings with your domain provider so that they point to our DNS servers listed above.

Please be sure to select the right DNS server names based on your hosting plan. The DNS servers listed at the top of the page are only for cPanel hosting plans, and the servers listed at the bottom are for Cloud hosting plans only.
