What is WordPress?

WordPress is truly the most desirable application available on the web. It has more than 46.000.000 yearly downloads and at the present moment is the system behind more than 18% of all the sites which can be found on the web. Even as it was launched as an uncomplicated blogging system, it promptly turned into a fully-featured CMS where it's easy to build any type of website. For this reason, WordPress website hosting is more popular than ever.

The platform's dominance owes much to its proactive community. This community has designed a plethora of free WordPress templates, plugins, and continues to add new capabilities and websites dedicated. If you're looking for the best WordPress hosting to support your website, it's essential to choose a provider that aligns with your needs.

WordPress Hosting on Your Choice of Platform

HostWorldServices provides two distinct WordPress hosting plans for our WordPress Hosting options. You can opt for our widely used cPanel WordPress hosting featuring pre-configured settings, essential plugins and apps, and tools ready to add or create your website or blog.

Or take advantage of our shared cloud platform with a free domain name and the option of selecting the nearest data centre to your location, thereby enhancing load times. For businesses, our enterprise WordPress hosting solutions ensure reliability and speed.

We offer affordable WordPress hosting without massively inflated renewal fees like other hosting companies. Our top-tier hosting plans save you money. Just compare us and you will see we offer some of the best hosting for WordPress and corporate web hosting solutions on the market today.

A Hassle-Free WordPress Hosting Experience

HostWorldServices offers you a trouble-free WordPress website hosting experience.

- A one-click WordPress script installation for Shared Cloud
- Free-of-charge WordPress web design skins on Shared Cloud
- WordPress cPanel bonus setup and configuration

Our hosting services offer a first-class hosting platform that delivers some of the fastest WordPress hosting experiences available.

- HostWorldServices platform meets and surpasses the basic prerequisites for hosting WordPress-based websites.
- The latest versions of Apache, MySQL and PHP

HostWorldServices offers an excellent tech support service.

- 24x7x365 support
- The average ticket response time is only 20 minutes.

Free WordPress Themes

If you want to promptly convert a standard WordPress website into an online shop, a portfolio, an organization website, a cosmetic salon homepage, etc., then you could benefit from the free-of-cost WordPress design templates built-into our cPanel and Hepsia Hosting Control Panel. These tools are included with each of our WordPress-optimized cPanel hosting service bundles, making us one of the best free website hosting providers for WordPress enthusiasts.

Every one of our web templates is absolutely cost-free and completely customizable – you're able to alter it however you'd like. Every theme can be installed with a few clicks, making it easy to set up on our best WordPress reseller hosting packages for developers or agencies. Our hosting services extend beyond the US, offering the best WordPress hosting Australia, best WordPress hosting Canada solutions, and around the world.

NOTE: If you purchase one of our cPanel WordPress Hosting Plans, and as soon as your order is processed, you will receive an email containing all your account details.

If you login to your hosting account, **PLEASE DO NOT CHANGE ANY SETTINGS YET!** To ensure a seamless experience, we kindly ask that you refrain from making any changes whilst our team configure your WordPress package and all the extras.

You will receive a confirmation email from our support team, usually within 48hrs or less once completed. Their email will notify you that the custom setup of all additional WordPress features has been completed, allowing you to login, make changes and fully enjoy your pre-configured WordPress Hosting Platform.

We appreciate your understanding and look forward to supporting you on your hosting journey.

If you have any questions, please [Contact us](#) for assistance.
